

Instructions in setting up Best Practise to print pathology request labels

In order to print pathology requests with patient labels from Best Practice software, the following set up is required:

1. From the main screen, select menu **Setup > Preferences**

2. From the following screen, select the **Pathology** option:

3. Select the preferred laboratory, in this case Medlab Pathology, and click on the **Edit** button:

4. From the next screen, specify the following:

5. You need to specify the Paper has specimen labels, and you can adjust, if required the duplicate section or moving the printing on the label section down by specifying the required value in mm.
6. Click on the **Save** button.
7. From the next screen, click **Save and Close**.
8. When you then request pathology, the request form should now print with the specimen labels information, as per example shown below:

Medicare No.

Patient name Sex Date of Birth 00000008

00000008 Street address Home Phone Work Phone
City, Postcode
