

Printing Medlab pathology request forms with Zedmed

This document describes set-up of Zedmed clinical practice software for printing Pathology Request forms with patient labels on Medlab Pathology pre-printed stationary.

From the clinical application, click on the Address Book icon . If Medlab Pathology has not been created, click on the Add New button to enter into list. Once entered, you can select row and click on the Edit button:

A screenshot of the Zedmed Clinical software interface. The window title is "Zedmed Clinical - DEMO". The menu bar includes File, Encounter, Results, Reference, Voice, Library, Reports, Tools, Utilities, and Help. The toolbar contains icons for Open Patient, Open Family, Close Patient, Waiting Room, Results Inbox, Scan, MIMS, Address Book (highlighted in yellow), Travel, Batch Writer, and To Do List. The patient name "Nicholson, Mrs Tess" is displayed. The main area is split into "Details" and "History View" tabs. The "Details" tab shows patient information: Address: 11 Berry Place, MARRICKVILLE D; DOB: 11/03/1944; Age: 65 years; Medicare No: 23257911082; File No: 7. The "History View" tab shows an "Address Book Search" window with fields for Name (Med), Suburb, Speciality (All), and Type of Contact (All). Below the search window is a table with columns: Full Name, Work Phone Number, Address, Work Fax Number, Mobile Phone, and Home Phone. The table contains one row: MEDLAB PATHOLOGY, 8745-6500, 3-5 Rawson Street AUBURN 2144, 8745-6599. A red arrow points to the "MEDLAB PATHOLOGY" entry. At the bottom, there are buttons for Edit, Add New, Print, Help, OK, and Cancel. The "Reference" tab is also visible, showing a list of "Pathology Investigations" with dates and names like "30/10/2009 Gribb" and "30/10/2009 MEDL".

The address details will be displayed:

specify pathology provider name

specify default options

path for result download/uploads

1. To set Medlab as the preferred laboratory, select the check box **Use as Preferred Laboratory**.
2. To print pathology request forms on pre-printed stationary with patient labels, select option Pathology Preprinted Type S2 with Label.
3. Depending on the default printer on the PC, you may need to adjust vertical offset. For example, on the Kyocera FS3830N printer tested here, we had to adjust by 2mm.
4. Specify the path for the result downloads in DL directory path.
